6. AWARENESS AGAINST UNRULY USE OF CRACKERS DURING THE FESTIVALS

Despite consistent and insistent efforts by the government and NGOs, it becomes unavoidable to generate and re-generate awareness against the use of crackers during festivals, especially, Diwali. Also, despite the hard realities of many unforeseen and unfortunate incidents, the socio-economic irrelevance and issues of pollution, certain social issues are raised and the exaggerated use of crackers becomes a venture of false values. The Trust cannot keep itself away from its duty to contribute in the efforts of generating awareness among the folk. A reasonable draft therefore was prepared and distributed among the folk, in the form of 10000 hand bills.
